This request is for 3.00 FTE for Associate Epidemiologists positions. Disease Intervention Specialists (DIS) are critical public health professionals working to stop the spread of infections that threaten communities throughout Missouri. Disease Intervention Specialists are crucial as they are trained professionals, informed about the cause and spread of STDs or HIV, skilled in taking sexual histories, identifying and locating people who may have been exposed, and referring people for testing and treatment. While expanding DIS capacity by contracting with local public health agencies, the number of DIS staff continues to be insufficient to meet the needs for the amount of work needing to be conducted throughout the state of Missouri. From 2015 to 2022, the number of cases assigned to DIS staff for Syphilis and HIV increased by approximately 272 percent. There were 6,846 cases assigned to DIS staff in 2022. The FTE will be placed in Kanas City and St. Louis areas, where cases remain extremely high. These FTE will ensure a more timely and adequate response to individuals newly diagnosed with HIV and STIs.

The Department of Health and Senior Services (DHSS) received funding to support an additional 35.00 FTE to conduct Home and Community Based Services (HCBS) assessment capacity in Fiscal Year 2023. To minimize the need for only 35.00 FTE in the Fiscal Year 2023 new decision item, DHSS assumed a total of 45,000 reassessments would be conducted by contracted community partners through the Value-Based Purchasing Reassessment Program. The Department has only been successful in recruiting community partners to conduct 25,000 annual HCBS reassessments. Therefore, the funding that was appropriated for community partners to address the unmet reassessment need is now needed to support additional staff members to conduct reassessments of seniors and individuals with disabilities across the state. This NDI is critical for DSDS to successfully implement the full Nursing Facility Level of Care transformation.

This funding request is for General Revenue to maintain the current Legionella (LD) program efforts, including funds for annual training and certification and funding for 1.00 FTE, a Public Health Environmental Officer, with salary of \$58,007 to assist in investigations. Department of Health and Senior Services' (DHSS) staff conduct Legionella investigations at all regulated hospitals, long-term care, and lodging facilities where bacteria has been reported. These investigations include a tour of the facility, water management plan reading, sampling, and providing a thorough recommendation to the facility.

Senate Bill 710, passed during the 2022 legislative session, requires the Department of Health and Senior Services (DHSS), to create a program that monitors and collects required items for registration of each supplemental health care services agency (SHCSA) that conducts business in Missouri health care facilities, and to promulgate rules to adopt the provisions of the legislation and create forms to implement the process. The legislation also requires SHCSAs to provide health care facilities documentation that each health care personnel contracted meets all licensing, certification, educational, and background check requirements for the position they will be working.

This funding request is to increase access to Hepatitis C virus (HCV) antibody screening and confirmatory testing for under and uninsured individuals. Hepatitis C is curable, with a cure rate of over 95 percent, and reduces the risk of cirrhosis and liver cancer as well as prevents transmission to others. The cost to treat one person with Hepatitis C is approximately \$24,000, compared to the costs of a liver transplant for approximately \$878,400. This will expand the State Public Health Lab's ability to process testing for HCV. Testing for HCV is currently provided through viral hepatitis supplemental funding from the Centers for Disease Control. This funding will end in April, 2024.

This is to request appropriation authority for funds that will be received in September 2023 to support ongoing efforts to reduce maternal mortality by conducting informant interviews to expand the understanding of the causes and context of and prevent maternal mortality in Missouri. The Department currently receives the Enhancing Reviews and Surveillance to Eliminate Maternal Mortality (ERASE MM) grant from the Center for Disease Control (CDC). This request will provide appropriation authority to spend funds from the federal grant. There is no match needed. One (1.00) new FTE, a Public Health Program Specialist, is also requested to: • Develop Pregnancy-Associated Mortality Review (PAMR) informant interview policies/protocols and consent forms. • Adapt interview questions from CDC resources. • Emphasizing data collection. • Develop bereavement support and resources. By implementing these strategies, Missouri’s PAMR program will improve the understanding of the cause and context of the deaths reviewed by the PAMR board. They will conduct interviews, prepare information from informant interviews for the PAMR committee review, and serve as a subject matter expert in case review meetings. Informant interviews complement medical and social service record requests related to each case by incorporating family and community perspectives in committee review. This request is seeking appropriation authority to be utilized for Alzheimer's prevention and education activities. This funding will support both the Center for Disease Control (CDC) Building Our Largest Dementia (BOLD) Infrastructure for Alzheimer's Act Grant application and the State Task Force Plan. Alzheimer's and related dementias represent one of the most urgent public health crises in Missouri and the rest of the United States. Authority is also requested to support the addition of one Senior Public Health Specialist, who will be responsible for implementation and coordination of programmatic activities.

This request for appropriation authority is for 2.00 Nutrition Specialist FTE positions for the United States Department of Agriculture (USDA) funded, Department- administered, Summer Food Service Program (SFSP), and the Child and Adult Care Food Program (CACFP) to ensure program continuity. These positions will perform monitoring, trainings, and provide technical assistance to sponsors and participating institutions. Prior to the summer of 2020, normal SFSP meal service operations required children to eat the meal and/or snack onsite in a congregate setting. Starting in summer 2023, the USDA issued permanent regulatory program changes to SFSP for states to begin operating non-congregate meal service in certain rural areas.

This request is seeking appropriation authority to be utilized for Alzheimer's prevention and education activities. This funding will support both the Center for Disease Control (CDC) Building Our Largest Dementia (BOLD) Infrastructure for Alzheimer's Act Grant application and the State Task Force Plan. Alzheimer's and related dementias represent one of the most urgent public health crises in Missouri and the rest of the United States. Authority is also requested to support the addition of one Senior Public Health Specialist, who will be responsible for implementation and coordination of programmatic activities.

This request is to fund the accessibility of fentanyl test strips (FTS) through local public health agencies along with STI and HIV testing sites that also provide harm reduction support to their local communities. Fentanyl test strips have been proven as an effective harm reduction strategy; by increasing the availability, detection of the deadly drug will reduce overdoses. Synthetic opioid-involved overdose deaths are on the rise. Out of all the drug overdose deaths in 2022, 67 percent involved synthetic opioids such as fentanyl. Fentanyl makes up over 90 percent of the deaths in the synthetic opioid category. Non-fatal drug overdoses are also on the rise for all drug overdoses as well as synthetic overdoses.

Emergency Preparedness and Response Coordination  
**Section 10.720**

Page 311

<b>Description:</b> The Emergency Preparedness and Response programs manage public health and healthcare planning and response to emergencies primarily through the Public Health Emergency Preparedness and Cities Readiness Initiative and the Hospital Preparedness Program Grants. Emergencies include: floods, tornadoes, earthquakes, influenza pandemics, disease outbreaks, environmental hazardous spills, biological and chemical terrorism, and nuclear power plant accidents. Through partnerships with local public health agencies (LPHAs), hospitals, other health organizations, local government, law enforcement agencies, schools, and other partners, systems are put in place to protect the health of Missourians during a public health emergency.

This request is for funding to maintain the stockpile of 500 portable ventilators and the 100 powered air purifying respirators (PAPRs). This equipment requires regular preventive maintenance to be in compliance with manufacturers' recommendations and hospital regulations and policies. The maintenance on these devices will allow all to be available for quick deployment to any respiratory disease outbreak or other similar medical surge. The ventilator supply can be used to support healthcare facilities when their ventilators are down for maintenance. In the past, the ventilator cache has been leveraged for nationwide manufacturers' recalls of ventilators with critical malfunctions.

This funding request is for appropriation authority for a Housing and Urban Development (HUD) agency funded grant to build capacity for Lead Hazard Reduction across the state. As provided in RSMo 701.343(1), the Department shall take all steps necessary to qualify for and accept any federal funds made available for state lead poison prevention. Authority to implement such financial assistance is further provided in RSMo 701.337.1. This three-year grant supports the development and administration of a program to identify and control lead-based paint hazards as well as establish the infrastructure and framework for existing and forthcoming lead control hazard grants to complete lead paint hazard control activities.

**Description:** This program provides HIV, sexually transmitted infection (STI) and viral hepatitis education to the general public, those at risk for infection, and clinical providers. This program also provides access to prevention and testing services, care and treatment, and a coordinated and efficient use of limited HIV, STI, and viral hepatitis resources to protect health and keep people safe. The program funds testing for HIV and STDs, behavioral risk education, community planning, and partner services for persons diagnosed with HIV or Syphilis, and Disease Surveillance; along with infection prevention and testing activities designed to reduce new infections throughout the state. A large portion of this program facilitates HIV medical care, medications, and related services for low-income Missourians living with HIV to improve individual health, as well as reduce HIV transmission rates. This work is funded through the Ryan White Program.

**Legal Base:** State Statute Sections: 191.653, 191.656, and 191.677, RSMo; Public Law 111-87 (Ryan White HIV/AIDS Treatment Extension Act of 2009); and Acquired Immune Deficiency Syndrome (AIDS) Housing Opportunity Act, 42 USC Section 12901.

This request is for 3.00 FTE for Associate Epidemiologists positions. Disease Intervention Specialists (DIS) are critical public health professionals working to stop the spread of infections that threaten communities throughout Missouri. Disease Intervention Specialists are crucial as they are trained professionals, informed about the cause and spread of STDs or HIV, skilled in taking sexual histories, identifying and locating people who may have been exposed, and referring people for testing and treatment. While expanding DIS capacity by contracting with local public health agencies, the number of DIS staff continues to be insufficient to meet the needs for the amount of work needing to be conducted throughout the state of Missouri. From 2015 to 2022, the number of cases assigned to DIS staff for Syphilis and HIV increased by approximately 272 percent. There were 6,846 cases assigned to DIS staff in 2022. The FTE will be placed in Kanas City and St. Louis areas, where cases remain extremely high. These FTE will ensure a more timely and adequate response to individuals newly diagnosed with HIV and STIs.

This funding request is to increase access to Hepatitis C virus (HCV) antibody screening and confirmatory testing for under and uninsured individuals. Hepatitis C is curable, with a cure rate of over 95 percent, and reduces the risk of cirrhosis and liver cancer as well as prevents transmission to others. The cost to treat one person with Hepatitis C is approximately \$24,000, compared to the costs of a liver transplant for approximately \$878,400. This will expand the State Public Health Lab's ability to process testing for HCV. Testing for HCV is currently provided through viral hepatitis supplemental funding from the Centers for Disease Control. This funding will end in April, 2024.

**Description:** The Child and Adult Care Food Program is mandated by Section 187 of the National School Lunch Act. The Act authorizes USDA funded assistance to states through grants-in-aid and other means to initiate, maintain, and expand non-profit food service programs for children and adults in nonresidential institutions that provide care during the day. To participate, childcare facilities must be licensed. Family day care home providers in low-income areas based on census or school data are eligible for a higher rate of reimbursement for meals. Child and adult care centers serving low-income children or adults may receive a higher rate of reimbursement on a per participant basis for those participants who are below 185% of the current year's federal poverty guidelines.

This request for appropriation authority is for 2.00 Nutrition Specialist FTE positions for the United States Department of Agriculture (USDA) funded, Department- administered, Summer Food Service Program (SFSP), and the Child and Adult Care Food Program (CACFP) to ensure program continuity. These positions will perform monitoring, trainings, and provide technical assistance to sponsors and participating institutions. Prior to the summer of 2020, normal SFSP meal service operations required children to eat the meal and/or snack onsite in a congregate setting. Starting in summer 2023, the USDA issued permanent regulatory program changes to SFSP for states to begin operating non-congregate meal service in certain rural areas.

<b>Description:</b> The Office of Rural Health and Primary Care (ORHPC), comprised of the State Office of Rural Health (SORH) and the Primary Care Office (PCO), enhances equitable access to health care services to rural and underserved populations and communities to improve the health status of these Missouri residents. ORHPC works closely with local health advocates, associations, universities, hospitals and clinics, and providers on a variety of community development activities and providing resources and leadership for health care access initiatives. SORH provides leadership in the development and coordination of rural health initiatives to support, strengthen, and improve rural health care. Additionally, SORH seeks to promote and develop diverse and innovative health clinics with trainings and recommend appropriate public policies to ensure the viability of rural students into health care professions, and collaborates with other state and national leaders to promote the advancement of rural health care.

This funding request is for General Revenue funding for the Health Professional Loan Repayment Program (HPLRP) to support 2.00 FTE that are necessary to operate the program. In 2023, Missouri enacted legislation to move nurse loan funds out of DHSS budget. At that time, funding was received for loan repayment awards, but no funds were issued for operation of the program.

This funding request is for additional General Revenue funding to increase the number of forgivable loan repayment awards for health care, mental health, and public health professionals for the Health Professional Loan Repayment Program (HPLRP). In 2023, Missouri enacted legislation to establish the Health Professional Loan Repayment Program and end the Primary Care Resource Initiative for Missouri (PRIMO). The Department is requesting the increase to meet the legislative requirements implemented in the new HPLRP by adding sufficient funding to support the inclusion of additional health practitioners and public health professionals. Increasing the awards for loan repayment will increase access to quality health care in parts of Missouri where a shortage of healthcare providers makes it difficult for low-income, uninsured, and geographically isolated Missourians to receive healthcare in multiple health practice areas.

Financial Aid to Medical Students and Medical School Loan Repayment Programs

**Section 10.760**

Page 138

<b>Description:</b> This section provides funding for two loan repayment programs. The Medical Student Loan Program underwrites the cost of a medical student’s education (up to \$7,500/year for 4 years) if the student agrees to practice in a medically underserved area. Repayment of 1/4 of the medical student loan is waived for each year the student practices in a medically underserved area after graduation. The Physician Loan Repayment program authorizes the repayment of a physician's medical education loans (up to \$20,000/year for 4 years) if said physician practices in a rural or urban underserved area. The goal of the Health Professional Student Loan Repayment Program is to increase the number of primary care physicians, advanced practice nurses and dentists practicing in underserved areas of the state through loan repayment.

**Primary Care Resource Initiative Program (PRIMO)**  
**Section 10.760**

Page 139

**Description:** The PRIMO program’s (Primary Care Resource Initiative for Missouri) goal is to develop a statewide system of community-based systems of care to assure access to primary and essential health care services for all individuals of the state, regardless of their ability to pay. PRIMO utilizes health professional incentives (student loans and forgiveness) and outcomes-based contracts to meet its goal. PRIMO and its partners/contractors recruit individuals from rural and underserved areas into health professional careers in areas of need, develop academic and clinical training programs for health professionals, and build health care delivery systems in underserved communities in the state. Funding for several Area Health Education Centers (AHECs) across the state was eliminated in FY 2011. PRIMO is partially supported by contributions from the Missouri Hospital Association.

**Section 10.760**

Page 140

**Description:** This section provides funding for loans to student professional nurses (\$5,000/year) and student practical nurses (\$2,500/year). Nursing education loan repayments are provided to RN's (\$5,000/year) working in areas of defined need. The Missouri Professional and Practical Nurse Student Loan Program was enacted to impact the shortage of nurses and access to health care for Missouri citizens. Loans are given to nursing students and are "forgiven" when the recipient graduates and works in a Health Professional Shortage Area (HPSA) in Missouri. Loan repayment is an incentive to get nurses to practice in underserved Missouri facilities in exchange for a contract to help repay their educational debt.

Page 508

<b>Description:</b> Minority Health Initiatives (MHI) work to develop public health interventions and strategies to decrease the rate of health disparities in underserved/vulnerable populations that are geographically, culturally, and economically isolated. This is accomplished through providing technical support for the design of culturally appropriate health messages and educational outreach; convening minority-specific community engagement opportunities, and assisting state and local partners with program implementation of activities for “hard-to-reach” minority and underserved populations.

This is to request appropriation authority for funds that will be received in September 2023 to support ongoing efforts to reduce maternal mortality by conducting informant interviews to expand the understanding of the causes and context of and prevent maternal mortality in Missouri. The Department currently receives the Enhancing Reviews and Surveillance to Eliminate Maternal Mortality (ERASE MM) grant from the Center for Disease Control (CDC). This request will provide appropriation authority to spend funds from the federal grant. There is no match needed. One (1.00) new FTE, a Public Health Program Specialist, is also requested to:

- Develop Pregnancy-Associated Mortality Review (PAMR) informant interview policies/protocols and consent forms.

- Adapt interview questions from CDC resources.
- Emphasizing data collection.
- Develop bereavement support and resources. By implementing these strategies, Missouri’s PAMR program will improve the understanding of the cause and context of the deaths reviewed by the PAMR board. They will conduct interviews, prepare information from informant interviews for the PAMR committee review, and serve as a subject matter expert in case review meetings. Informant interviews complement medical and social service record requests related to each case by incorporating family and community perspectives in committee review. An existing Registered Nurse position will move ten

**Section 10.772**

N/A

**Description:** This section will establish a network of regional FIMR teams with a two-tiered system to conduct case reviews for infant mortality and take action on prevention recommendations. The Missouri FIMR Program would be adapted as a network of regional FIMR teams, based on public health regions and covering geographic areas of interest representing multiple natural communities and directed by the Department of Health and Senior Services’ (DHSS) Maternal Child Health (MCH) leadership team, to review all fetal and infant deaths from 24 weeks gestation through the first 12 months of life. The FIMR process would operate as a two-tiered system, with a Community Review Team (CRT) to conduct case reviews and a separate Community Action Team (CAT), charged with taking the recommendations of the CRT and putting them into action.

<p>This funding is to assist in offsetting increasing costs related to the issuance of fee-exempt (free) vital records in an effort to stabilize and maintain statewide operations of the vital records and statistics registration and issuance system utilized by the Missouri Department of Health and Senior Services and 115 local public health agencies (LPHAs). Pursuant to 192.060, RSMo, it shall be the duty of the Department of Health and Senior Services to have charge of the state system of registration of births and deaths; to prepare the necessary methods, forms and blanks for obtaining and preserving such records, and to insure the faithful registration of the same in the registration districts and in the central bureau of vital statistics at the capital of the state. Section 193.265, RSMo, relating to the fees collected for the issuance of a vital record, such as birth and death certificates, over the last several years continues to be amended by various entities to expand the list of eligible parties to receive free certificates. Current exempted entities from previous statutory updates include: • Voter ID: 2016 HB 1631 passed amending Section 115.427, RSMo to require DHSS to provide one (1) fee exempt certified copy of a birth certificate to individuals seeking to obtain a form of personal identification described in §115.427.1, RSMo in order to vote (§115.427.6(2)).</p> <p>• DSS: 2018 SB 819 passed amending Section 193.265, RSMo to provide free certificates of birth, death, or marriage if the requested by the children's division, the</p>

<b>Description:</b> This section provides a broad range of disease control and surveillance, preventive healthcare, emergency preparedness, all-hazards laboratory response, environmental monitoring, and laboratory improvement services. The SPHL operates specialty units in Jefferson City and Poplar Bluff that provide services to physicians, veterinarians, law enforcement officials, local and district public health personnel, hospitals, and private laboratories. The SPHL conducts testing in the fields of immunology, virology, microbiology, tuberculosis, chemistry, environmental bacteriology, advanced molecular detection, and newborn screening that allow medical practitioners to identify harmful conditions and provide appropriate treatment. The SPHL also conducts analyses of water and food to assure its safe use. The SPHL is the state reference laboratory, serving the department, local health agencies, and medical professionals and institutions throughout Missouri by confirming results or completing organism identification.

This funding request is to increase access to Hepatitis C virus (HCV) antibody screening and confirmatory testing for under and uninsured individuals. Hepatitis C is curable, with a cure rate of over 95 percent, and reduces the risk of cirrhosis and liver cancer as well as prevents transmission to others. The cost to treat one person with Hepatitis C is approximately \$24,000, compared to the costs of a liver transplant for approximately \$878,400. This will expand the State Public Health Lab's ability to process testing for HCV. Testing for HCV is currently provided through viral hepatitis supplemental funding from the Centers for Disease Control. This funding will end in April, 2024.

The Department of Health and Senior Services (DHSS) received funding to support an additional 35.00 FTE to conduct Home and Community Based Services (HCBS) assessment capacity in Fiscal Year 2023. To minimize the need for only 35.00 FTE in the Fiscal Year 2023 new decision item, DHSS assumed a total of 45,000 reassessments would be conducted by contracted community partners through the Value-Based Purchasing Reassessment Program. The Department has only been successful in recruiting community partners to conduct 25,000 annual HCBS reassessments. Therefore, the funding that was appropriated for community partners to address the unmet reassessment need is now needed to support additional staff members to conduct reassessments of seniors and individuals with disabilities across the state. This NDI is critical for DSDS to successfully implement the full Nursing Facility Level of Care transformation.

**Description:** This core funding provides temporary protective services for eligible adults who have been victims of abuse, neglect, or financial exploitation. Division of Senior and Disability Services' staff authorize and arrange short-term services to allow individuals to remain in their homes and communities. The Adult Brain Injury (ABI) Program and the Children and Youth with Special Health Care Needs (CYSHCN) Program provides service coordination. This core also includes the Non-Medicaid Eligible (NME), which funds services to meet personal care needs for consumers who are not Medicaid eligible. Individuals must meet annual eligibility requirements regarding income and assets and need assistance with activities of daily living. State statute places a cap on this program and no new participants may be enrolled. The program is set to sunset on June 30, 2025 per Section 208.930.12, RSMo (NME).

This NDI request is for funding to maintain a project initiated via Administration for Community Living (ACL) Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA) and American Rescue Plan Act (ARPA) funding as a collaborative effort between Missouri Adult Protective Services (APS) and community partners to provide unmet resource gaps for eligible adults statewide. ACL has awarded the state a federal Adult Protective Services Elder Justice Act Grant (\$257,472) to serve seniors and adults with disabilities impacted by abuse, neglect, exploitation, and self-neglect. Missouri APS received 30,337 APS hotline reports in fiscal year 2023. There were 758 APS eligible adults referred during fiscal year 2023 for emergency unmet needs through the Direct Services Program to improve the safety, health, and welfare of eligible adults. Providing sustained funding for the Direct Services Program for these short-term emergency interventions will improve the safety of Missourians, prolong the need for costly nursing facility placements, and enable APS to provide person-centered wrap-around services.

**Description:** This section provides funding for assistance in locating, coordinating and purchasing rehabilitation and psychological services for individuals who have reached their 21<sup>st</sup> birthday and survived a traumatic brain injury. Treatment services include evaluation; an assessment of needs; information and education on the cause and effects of traumatic brain injury and preventing secondary conditions; service plan of interventions to meet the needs; assistance in locating and accessing services such as medical care, housing, counseling, transportation, rehabilitation, vocational training, cognitive/behavioral training and regular evaluations and updates of the service plan. The program goal is to enable survivors to return to a productive lifestyle in their local community. Traumatic brain injury survivors whose income is less than 185% of the federal poverty level are eligible for rehabilitation services when no other funding source is available.

This request is for additional General Revenue to pick up the loss of federal dollars caused by the reduction in FMAP and EFMAP rates. This request will be offset by federal core cuts to FMAP funding. This request is needed due to the ending of the Public Health Emergency and additional enhanced FMAP AEG funding which has reduced the FMAP federal participation percentage.

**Description:** Home and Community-Based Services (HCBS) allows Medicaid-eligible seniors and individuals with physical disabilities access to a variety of long-term services and supports in the community that promote independence, health, and quality of life in their community or the least restrictive setting. HCBS may include personal care, attendant care, nurse visits, adult day care, homemaker, respite, home-delivered meals, specialized medical/adaptive equipment, medical supplies, private duty nursing, health screenings, and subsequent treatment for identified health problems. Service options may vary depending on specific qualifying criteria for each HCBS option. The Division of Senior and Disability Services (DSDS) is responsible for HCBS eligibility determination and authorization. DSDS manages HCBS benefits authorized under the Medicaid State Plan and administers six 1915(c) waivers (Aged and Disabled Waiver, Adult Day Care Waiver, Independent Living Waiver, Structured Family Caregiving Waiver, Traumatic Brain Injury Waiver, and Medically Fragile Adults Waiver) that provide HCBS benefits to seniors and individuals with disabilities who would otherwise be eligible to receive care in a skilled nursing facility or intermediate care facility.

<b>Description:</b> The Division of Senior and Disability Services (DSDS) operates Missouri’s Medicaid-funded Home and Community Based Services (HCBS) program, which serves 65,000 Missourians and rapidly grows as the population ages. The American Rescue Plan Act awarded states a temporary enhanced federal match percentage (FMAP) for all HCBS services. The State received a 10 percent temporary increase from 4/1/21 to 3/31/22 for specified HCBS offered across DHSS, DMH, and DSS. To be eligible for the FMAP increase, the State cannot use the funding increase to supplant state funding and must use it for one or more activities to enhance, expand, or strengthen HCBS. This section funds specific initiatives to enhance HCBS within DSDS utilizing the HCBS enhanced FMAP Fund.

<b>Description:</b> This section funds services and programs for seniors administered via contracts with the ten Area Agencies on Aging (AAAs). Federal Older Americans Act (OAA) funded grants pass through the Department of Health and Senior Services to the AAAs to provide senior programs, including congregate and home-delivered meals, and services to help prevent unnecessary or premature long-term care facility placement. The Division of Senior and Disability Services (DSDS) allocates Older Americans Act - Title III funds to the ten AAAs using a federally approved intrastate funding formula based on mandated criteria and information about the demographics of Missourians age 60 and over. Outside funding including community funds, grants, and contributions are also utilized. Additionally, persons receiving services are invited to voluntarily and confidentially contribute toward the cost of the service.

Missouri’s ten Area Agencies on Aging (AAAs) have been awarded COVID-19 funding since state fiscal year 2020. This influx in federal funding has allowed AAAs to meet more needs of older adults across the state, but has caused an increased carryover of their base Older Americans Act (OAA) federal funding. As the AAAs continue to spend down their individual ARPA awards while utilizing their base OAA funding, the AAAs will increase their total use of federal funds for home delivered and congregate meals, transportation services, and other in-home services for older adults.

**Description:** This section provides funding for the Senior Independent Living Programs (Formally Naturally Occurring Retirement Communities Grants Program (NORC)). This program has established programs, supports, and services within four local communities allowing seniors in the designated geographic areas to remain in the community rather than entering a long-term care facility. These programs support the healthy aging of older adults through increased community involvement and easy access to services that include transportation; socialization and education; assistance with household maintenance; healthcare; and volunteer opportunities.

<b>Description:</b> This section provides funding to assist frail senior immigrants and refugees who have lawfully resided in Missouri for at least five years and cannot complete the normal naturalization process due to health barriers. Becoming a citizen allows these individuals to obtain federal benefits they would not otherwise qualify for after their initial 84-month eligibility period in the United States. These federal benefits, such as Medicare and Supplemental Security Income, relieve the financial obligation to state resources such as Medicaid.

<b>Description:</b> The Quality Improvement Program for Missouri (QIPMO) is a cooperative service of the Department of Health and Senior Services (DHSS) and the University Of Missouri Sinclair School Of Nursing. The service provides long-term care nursing facility staff with technical assistance and support separate from the DHSS survey process. The Sinclair School of Nursing utilizes gerontological nurse experts to work directly with long-term care nursing facility staff to help them learn best clinical practices, improve care delivery, and improve the outcomes for nursing home residents.

**Description:** This Division of Cannabis Regulation issues and regulates licenses for marijuana facilities that serve both the medical and adult use populations of cannabis consumers to ensure safe product for these individuals. All fees received from the adult use marijuana program are deposited into the Veterans, Health, and Community Reinvestment Fund along with taxes paid on retail marijuana product. Per Article XIV, after the Division's operating expenses are paid and funds appropriated to governmental entities for carrying out responsibilities for expungement of criminal history records, the Department may use certain remaining funds for grants to agencies and not-for-profits to increase access to evidence-based, low-barrier drug addiction treatment programs, support overdose prevention education, and to support job placement, housing, and counseling for those with substance use disorders. Agencies and organizations serving populations with the highest rates of drug-related overdose shall be prioritized to receive the grants.

In 2022, Missouri voters approved Amendment 3, which legalized cannabis for adult recreational use. In compliance with the constitutional provisions, after accounting for administrative and criminal expungement costs, remaining funds are spilt to support veterans health care services, SUD grants, and securing the constitutional right to legal representation. DHSS will distribute these funds among themselves and various government and partner organizations to address, prevent, and treat individuals with substance use disorder.

**Division of Administration**  
**Adult Use Cannabis Transfers**  
**Section 10.915**

Page 864

**Description:** The Division of Cannabis Regulation issues and regulates licenses for marijuana facilities that serve both the medical and adult use populations of cannabis consumers to ensure safe product for these individuals. All fees received from the adult use marijuana program are deposited into the Veterans, Health, and Community Reinvestment Fund along with taxes paid on retail marijuana product. After the Division's operating expenses are paid and funds appropriated to governmental entities for carrying out responsibilities for expungement of criminal history records, then funds may be transferred to Missouri Veterans Commission and allied state agencies for healthcare and other services for military veterans and their dependent families; and for the Missouri Public Defender System for low-income eligible Missourians. **(Non-count)**

**Legal Base:** Article XIV of the Missouri Constitution  
**Funding Source:** Veterans, Health, and Community Reinvestment (0608)  
**FY 2024 GR W/H:** N/A
